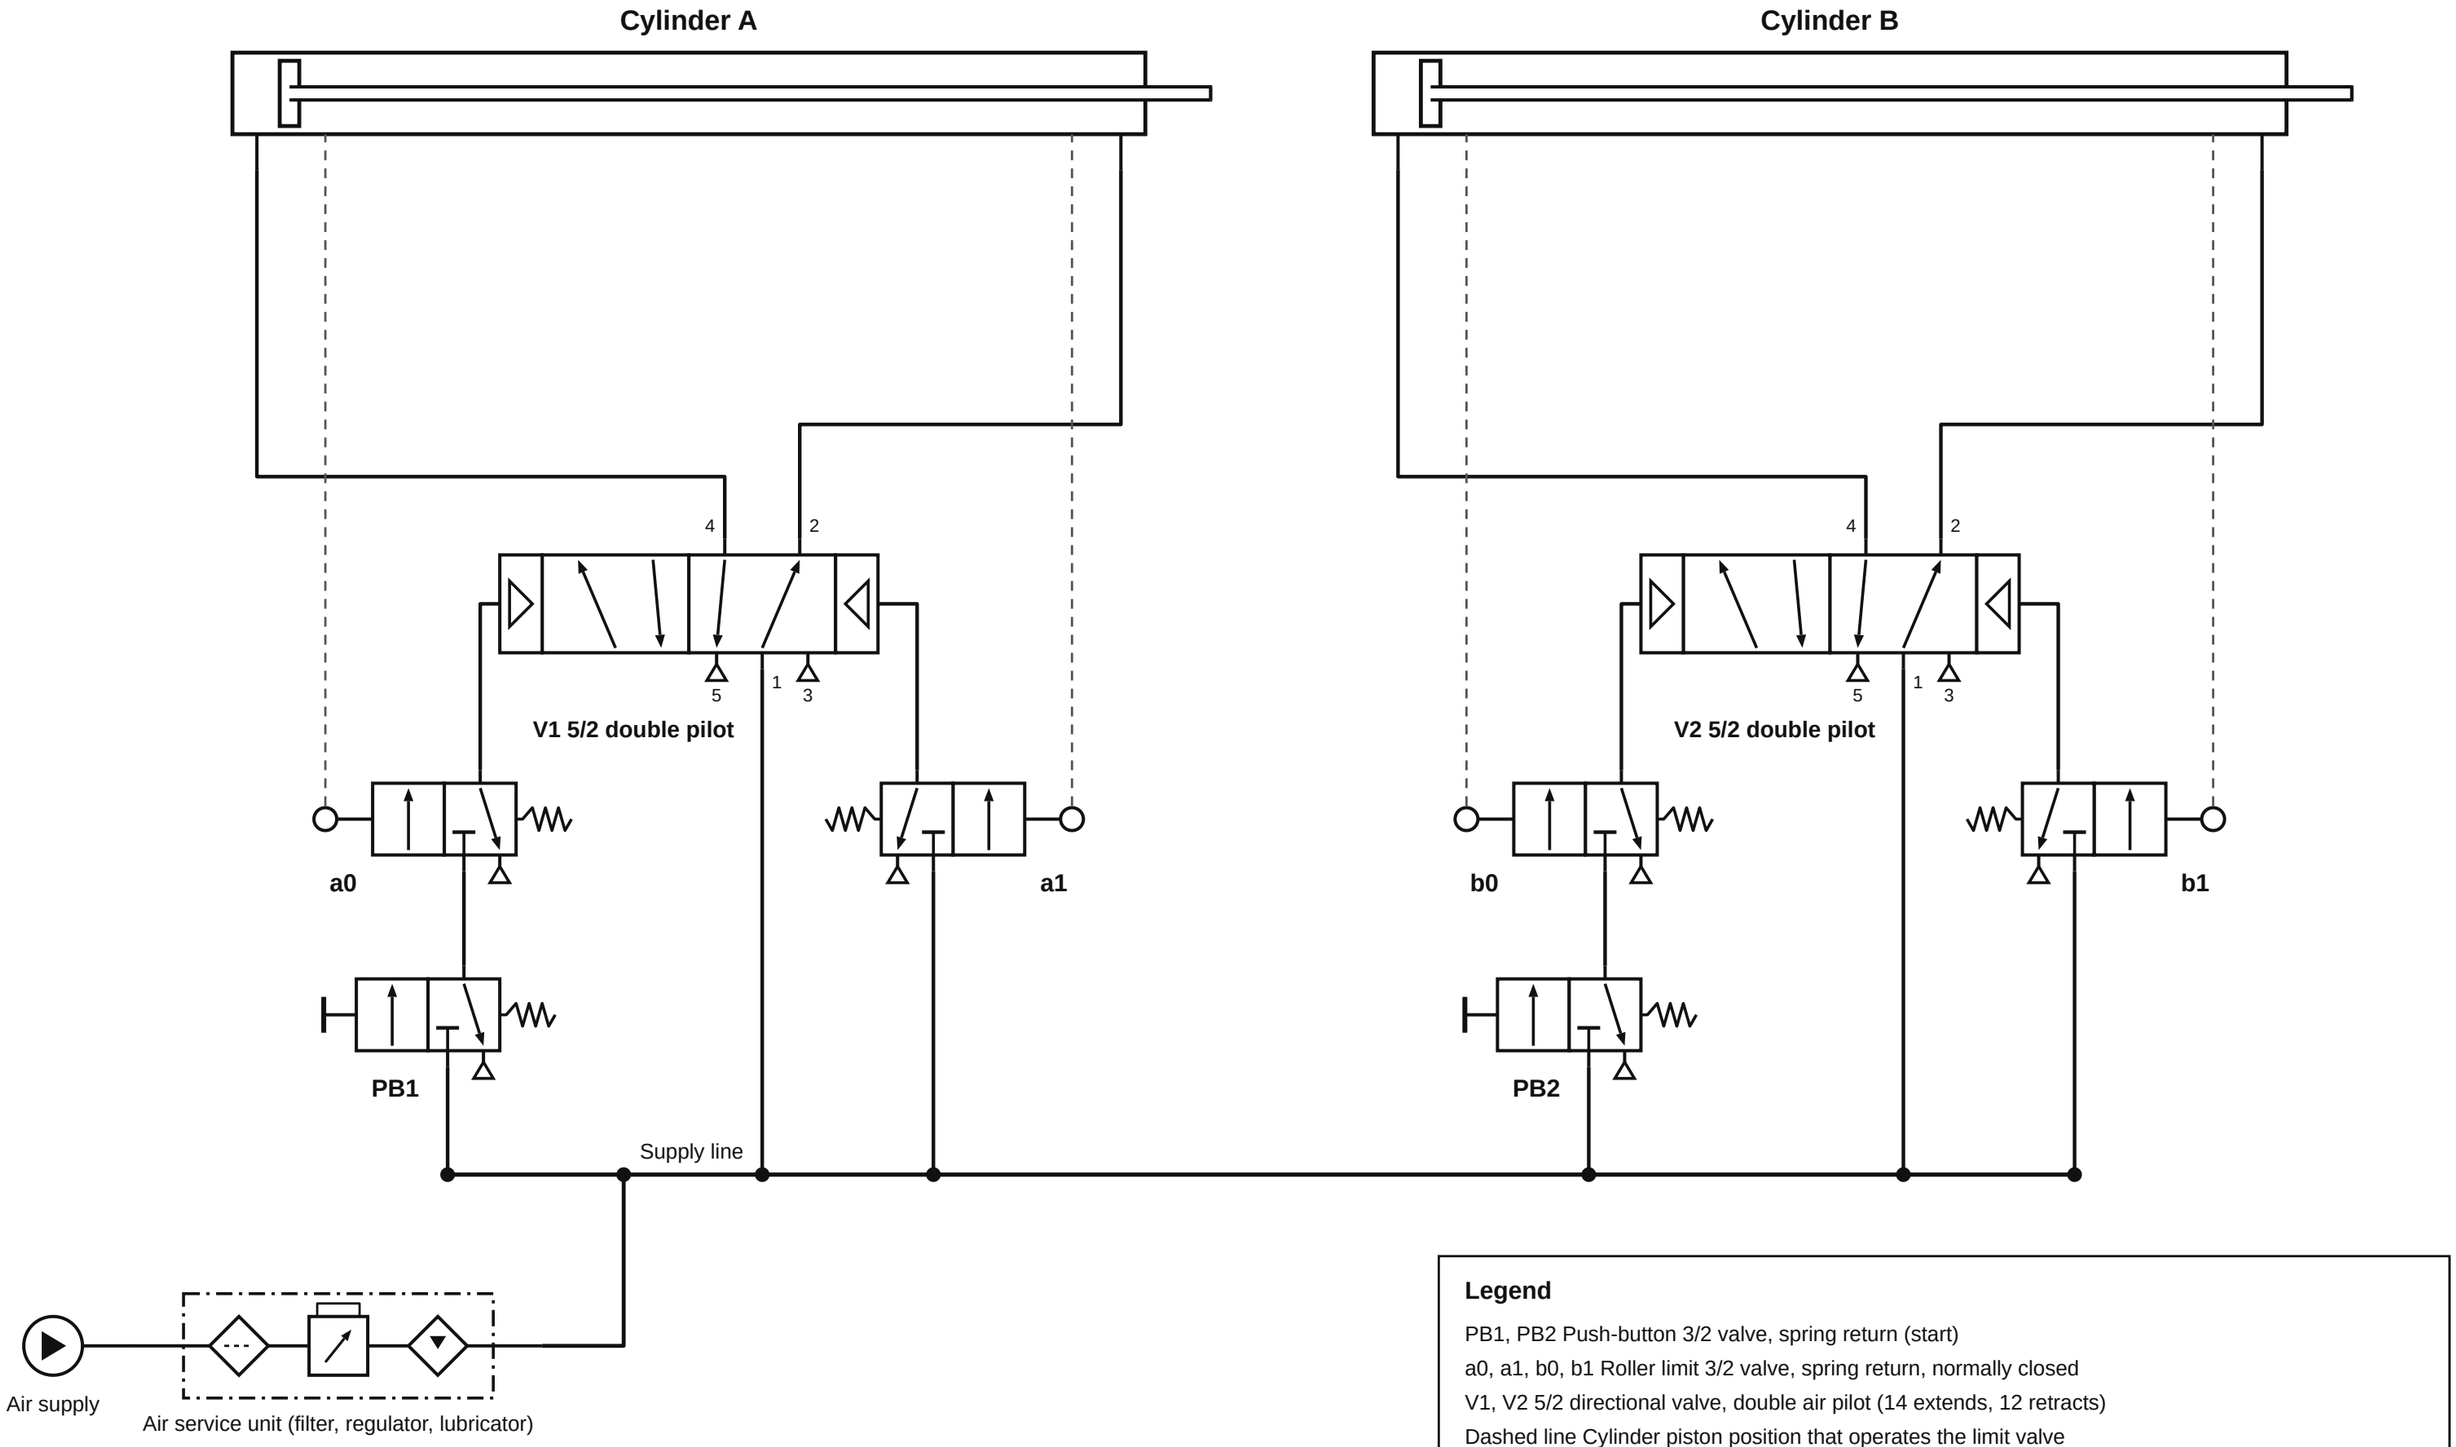
Pneumatic Circuit Diagram

Two double-acting cylinders, each with a start push button, a 5/2 double pilot valve and two roller limit valves



Legend

PB1, PB2 Push-button 3/2 valve, spring return (start)

a0, a1, b0, b1 Roller limit 3/2 valve, spring return, normally closed

V1, V2 5/2 directional valve, double air pilot (14 extends, 12 retracts)

Dashed line Cylinder piston position that operates the limit valve
